

4PCE13

Electric/Electric
Packaged Units

ADVANCED TECHNOLOGY IN A PACKAGED UNIT YOU CAN COUNT ON EVERY SEASON.

BUILT FOR LIFE. YOURS.

AIREASE®

Built for life. Yours.

The consistent choice in performance
from an all-in-one solution.

Our dealers across the country have a lot of choices when it comes to packaged units. They continue to choose the AirEase™ **4PCE13** because they know their customers will enjoy **precise performance from advanced comfort technology**, season after season.

Inside the design of an AirEase 4PCE13 packaged unit:

MHT™ Technology:

AirEase's proprietary heat transfer system. The coil features rifled tubing to enhance refrigerant flow, while lanced coil fins increase surface contact between metal and air. They combine for maximum heat transfer and efficiency.

Internal Monitoring:

Your AirEase packaged unit's electronic control system prolongs system life by continuously monitoring internal components for optimum performance and fault prevention.

High-Pressure Switch:

This feature prevents operation of your cooling unit in the event that refrigerant pressures exceed safe levels, protecting the compressor.

Vibration Reduction:

Each compressor is constructed with rubber pads to reduce vibration during operation. Less vibration lowers sound, so your outdoor entertaining is not interrupted.

Single-Stage Scroll Compressor:

A time-proven design chosen for its consistent performance, incredible durability and long operating life, the single-stage scroll compressor works hard year after year.

All-in-One Design:

Our single-unit design was developed to keep all heating and cooling operation outside the home, keeping sound inside your home to a minimum.

The advanced features of the AirEase 4PCE13 work together to bring you:

CRAFTSMANSHIP

From its heavy-duty scroll compressor to its MHT Technology, the **4PCE13** is a testament to AirEase's commitment to **rugged performance and high standards of quality.**

EFFICIENCY

With a Seasonal Energy Efficiency Ratio (SEER) of 13.00, the **4PCE13** meets or exceeds government standards for energy efficiency. So you'll **use energy wisely, and stay comfortable,** every day of the year.

COMMITMENT

AirEase's dedication to a better product is backed by a 10-Year Limited Warranty on parts.*

AirEase™ packaged units exceed the demanding standards of HVAC dealers and homeowners across the country.

PRECISE PERFORMANCE

Every 4PCE13 packaged unit comes with MHT™ Technology, which features specially designed rifled tubing and lanced coil fins for maximum heat transfer efficiency.

The hard-working scroll compressor found in every 4PCE13 provides enhanced performance and consistent airflow. In addition, the high-pressure switch and internal monitoring ensure proper operation while extending compressor life.

EFFICIENCY

The 4PCE13 offers a SEER of 13.00, which helps it stay energy efficient even in extreme temperatures. In fact, the 4PCE13 can help you save money on your energy bills, even when compared to systems that are a few years old.

AirEase 4PCE13 packaged units are a consistent choice by HVAC experts. And an excellent choice for you.

When you choose an AirEase **4PCE13** packaged unit, you're choosing the proven expertise and technology that only AirEase offers. You're choosing to trust the brand that's selected by those who know heating and cooling best. You're choosing the right unit for you and your family. **One that's BUILT FOR LIFE. YOURS.**

AIREASE™

Built for life. Yours.
