

4SHP18LT

18 SEER,  
Two-Stage  
Heat Pumps

SUPER-EFFICIENT COOLING AND HEATING PREFERRED BY HOMEOWNERS WHO DEMAND MORE.

# BUILT FOR LIFE. YOURS.

**AIREASE**

**AIREASE**<sup>®</sup>

Built for life. Yours.

A man in a white polo shirt is leaning on a grey heat pump unit. He is holding a green oval logo with the word 'AIREASE' in white capital letters. The heat pump unit has a large, grey, slatted grille on the front. The background is a light-colored wall.

Choose the heat pump built  
on 80 years of expertise.  
Choose the 4SHP18LT.

Advanced features and technology mixed with long-term dependability. When you choose the AirEase™ **4SHP18LT** heat pump, you can take comfort knowing this powerful combination is at work to give you the **highest levels of efficiency, reliability and cooling performance**. It keeps your home consistently cool—day after day and season after season, building on more than 80 years of expertise.

## Inside the design of an AirEase 4SHP18LT heat pump:

### MHT™ Technology:

AirEase's proprietary heat transfer system. A specially designed fan shroud pulls air evenly throughout the heat pump's coil surface. The coil features rifled tubing to enhance refrigerant flow, while lanced coil fins increase surface contact between metal and air. All combine for maximum heat transfer and efficiency.

### Quiet Shift™ Technology:

Allows heat pumps to enter defrost mode without excessive noise. Since refrigerant pressure is allowed to equalize before the switch, the heat pump can dissipate performance-robbing frost and ice quietly.

### Sound Reduction:

Inside every 4SHP18LT, you'll find a compressor that's wrapped in a heavy-duty, sound-insulating blanket to reduce operating noise. So you'll enjoy peace and quiet with your comfort.

### Two-Stage Scroll Compressor:

Rather than being "all on" or "all off," your heat pump can adjust its output to a high or low level based on your cooling needs. Its two-stage scroll compressor uses a time-tested design known for its consistent performance and long operating life.

### Integrated Compressor Protection:

High- and low-pressure switches give additional reliability to each AirEase heat pump. The high-pressure switch prevents operation if refrigerant pressures exceed safe levels, protecting the compressor. If your unit does not have enough refrigerant, the low-pressure switch prevents the unit from drawing in moisture and other contaminants while operating.

### Microban® Protection:

On Matched AirEase Indoor Coil. Drain pans are infused with an antibacterial agent that destabilizes the membrane of microorganism cells, disrupting the cellular function of odor-causing mold and bacteria so they can no longer grow or reproduce.

## Dual-Fuel

The combination of a gas furnace and an electric heat pump pairs two energy sources for the perfect balance of energy efficiency and comfort.

## The advanced features of the AirEase 4SHP18LT work together to bring you:

### CRAFTSMANSHIP

The **4SHP18LT** combines advanced MHT and Quiet Shift Technologies with the highest-quality materials to **deliver superior performance** that you can rely on for many years to come.

### EFFICIENCY

With efficiency ratings of up to 18.00 SEER and 9.20 HSPF, the **4SHP18LT** heat pump has the power to **reduce your utility bills by hundreds of dollars every year.** (See back cover for an estimate of annual energy savings.)

### COMMITMENT

AirEase's dedication to a better product is backed by a 10-Year Limited Warranty on the compressor and a 10-Year Limited Warranty on parts.\*

Designed to meet the demanding standards of homeowners and experienced dealers alike.

### PRECISE PERFORMANCE

Two-stage operation maintains a consistent temperature throughout your home. Since the 4SHP18LT can run at a lower capacity during milder weather, it can use longer, gentler, more-efficient heating and cooling cycles. During extremely hot or cold weather, though, it can ramp up to a higher capacity to keep your home just the right temperature.

The 4SHP18LT is also designed to be Dual-Fuel compatible, meaning it can be combined with a gas furnace for increased energy efficiency throughout the year.

### TWO-STAGE COMPRESSOR OPERATION

With its two-stage design, the 4SHP18LT makes the distinction between mild and extremely hot or cold days, using only the energy necessary to keep you comfortable.

### EFFICIENCY

The 4SHP18LT has efficiency ratings of up to 18.00 SEER and 9.20 HSPF—significantly higher than standard single-stage heat pumps. That means you can save hundreds of dollars in energy costs, all without sacrificing your ideal home environment.

### 5-YEAR ENERGY SAVINGS\*\*

Savings versus 10.00 SEER units

\*Warranty applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.

\*\*Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors.

The AirEase™ 4SHP18LT heat pump. Chosen with confidence by people who expect and deliver excellence.

Choose the **4SHP18LT** heat pump for your home and experience a higher level of performance. Performance you can count on for years to come. It's a smart choice. **Because it's BUILT FOR LIFE. YOURS.**
