

**4PCE13**

Electric/Electric  
Packaged Units

ADVANCED TECHNOLOGY IN THE PACKAGED UNIT CHOSEN BY PROFESSIONALS.

# THE PROFESSIONAL'S CHOICE

**ARMSTRONG**  
**AIR**<sup>®</sup>  
The Professional's Choice

The consistent choice in performance from an all-in-one solution.

HVAC professionals across the country have a lot of choices when it comes to packaged units. They continue to choose the Armstrong Air™ **4PCEI3** because they know their customers will enjoy **precise performance from advanced comfort technology**, season after season.

## Inside the design of the Armstrong Air 4PCE13 packaged units:

### All-in-One Design:

Our single-unit design was developed to keep all heating and cooling operation outside the home, keeping sound inside your home to a minimum.

### MHT™ Technology:

Armstrong Air's proprietary heat transfer system. The coil features rifled tubing to enhance refrigerant flow, while lanced coil fins increase surface contact between metal and air. They combine for maximum heat transfer and efficiency.

### Internal Monitoring:

Your Armstrong Air packaged unit's electronic control system prolongs system life by continuously monitoring internal components for optimum performance and fault prevention.

### High-Pressure Switch:

This feature prevents operation of your cooling unit in the event that refrigerant pressures exceed safe levels, protecting the compressor.

### Vibration Reduction:

Each compressor is constructed with rubber pads to reduce vibration during operation. Less vibration lowers sound, so your outdoor entertaining is not interrupted.

### Single-Stage Scroll Compressor:

A time-proven design chosen for its consistent performance, incredible durability and long operating life, the single-stage scroll compressor works hard year after year.

The advanced features of the Armstrong Air packaged units work together to bring you:

### CRAFTSMANSHIP

From its heavy-duty scroll compressor to its MHT Technology, the **4PCE13** is a testament to Armstrong Air's commitment to **rugged performance and high standards of quality.**

### EFFICIENCY

With a Seasonal Energy Efficiency Ratio (SEER) of 13.00, the **4PCE13** meets or exceeds government standards for energy efficiency. So you'll **use energy wisely, and stay comfortable,** every day of the year.

### COMMITMENT

Armstrong Air's dedication to a better product is backed by a 10-Year Limited Warranty on parts.\*

Armstrong Air™ packaged units exceed the demanding standards of HVAC dealers and homeowners across the country.

#### PRECISE PERFORMANCE

Every 4PCE13 packaged unit comes with MHT™ Technology which features specially designed rifled tubing and lanced coil fins for maximum heat transfer efficiency.

The hard-working scroll compressor found in every 4PCE13 provides enhanced performance and consistent airflow. In addition, the high-pressure switches and internal monitoring ensure proper operation while extending compressor life.

#### EFFICIENCY

The 4PCE13 offers a SEER of 13.00, which helps it stay energy efficient even in extreme temperatures. In fact, the 4PCE13 can help you save money on your energy bills, even when compared to systems that are a few years old.

Armstrong Air  
**4PCE13**  
packaged units  
are a consistent  
choice of  
professionals.  
And an excellent  
choice for you.

When you choose an Armstrong Air **4PCE13** packaged unit, you're choosing the proven expertise and technology that only Armstrong Air offers. And you're choosing to trust the brand that's selected by those who know heating and cooling best. **It's the best choice, because it's THE PROFESSIONAL'S CHOICE.**
