

4SCU13LE

13 SEER,
Single-Stage
Air Conditioners

POWERFUL AND EFFICIENT COOLING THROUGH BETTER TECHNOLOGY.

THE PROFESSIONAL'S CHOICE

 **ARMSTRONG**
AIR
The Professional's Choice

Industry professionals who know cooling know that Armstrong Air™ is always the best choice.

Inside the **4SCUI3LE** you'll find a unique blend of **advanced technology** that delivers consistent efficiency and performance through even the hottest summers. The 4SCUI3LE is **designed by comfort experts**, and built by people who take genuine pride in their work. So, naturally, the professionals who know air conditioning continue to **recommend the 4SCUI3LE** to their customers who want more.

Inside the design of an Armstrong Air 4SCU13LE air conditioner:

MHT™ Technology:

Armstrong Air's proprietary heat transfer system. A specially designed fan shroud pulls air evenly throughout the air conditioner's coil surface. The coil features rifled tubing to enhance refrigerant flow, while lanced coil fins increase surface contact between metal and air. All combine for maximum heat transfer and efficiency.

Sound Reduction:

Inside every 4SCU13LE, you'll find a compressor that's wrapped in a heavy-duty, sound-insulating blanket to reduce operating noise. So you'll enjoy peace and quiet with your comfort.

Integrated Compressor Protection:

High- and low-pressure switches give additional reliability to each Armstrong Air air conditioner. The high-pressure switch prevents operation if refrigerant pressures exceed safe levels, protecting the compressor. If your unit does not have enough refrigerant, the low-pressure switch prevents the unit from drawing in moisture and other contaminants while operating.

Single-Stage Scroll Compressor:

A time-proven design chosen for its consistent performance, incredible durability and long operating life, the single-stage scroll compressor works hard year after year.

Microban® Protection:

On Matched Armstrong Air Indoor Coil. Drain pans are infused with an antimicrobial agent that destabilizes the membrane of microorganism cells, disrupting the cellular function of odor-causing mold and bacteria so they can no longer grow or reproduce.

The advanced features of the Armstrong Air 4SCU13LE work together to bring you:

CRAFTSMANSHIP

The forward thinking that goes into the 4SCU13LE is apparent throughout. Like MHT Technology, a new piping design that improves refrigerant surface contact, thereby **increasing heat transfer, comfort and efficiency.** Additional touches like an insulation blanket for **quieter operation** demonstrate Armstrong Air's commitment to offering more in every respect.

EFFICIENCY

The 4SCU13LE offers a Seasonal Energy Efficiency Ratio (SEER) of 13.00, which means its performance will meet or exceed the energy standards created by the government. It also means your new system can help you **use less energy every month,** even when compared to a system that's only a few years old.

COMMITMENT

Armstrong Air's dedication to a better product is backed by a 10-Year Limited Warranty on the compressor and a 10-Year Limited Warranty on parts*.

From small touches to major design advancements, the 4SCU13LE is a fine example of Armstrong Air's™ dedication to advanced technology and superior performance.

PRECISE PERFORMANCE

The 4SCU13LE uses MHT™ Technology to increase the efficiency of heat transfer between metal and air. For added dependability, it also uses a high-pressure switch that protects crucial compressor components from damage due to increased system pressure. A sound-insulating blanket reduces sound levels, while a robust 10-year warranty provides peace of mind season after season.

EFFICIENCY

With a Seasonal Energy Efficiency Ratio (SEER) of 13.00, the 4SCU13LE meets or exceeds government standards for energy efficiency. This means you can enjoy more enjoyable summers, even in the worst heat, while still using energy wisely.

5-YEAR ENERGY SAVINGS**

Savings versus 10.00 SEER units

*Warranty applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.
 **Savings vary depending on use, geography, lifestyle, maintenance, installation and other factors.

The Armstrong Air 4SCU13LE is a wise investment in technology. And the choice of those who know air conditioning.

When you select the 4SCU13LE, you're choosing a better air conditioner. You're choosing technology that draws on 80 years of cooling expertise, and an air conditioner that's built by people who take pride in their work. Enjoy the advanced cooling design that Armstrong Air offers. **It's a smart choice, and THE PROFESSIONAL'S CHOICE.**
