Choose reliability and efficiency. Right now.

4HP14
HEAT PUMPS

CONCORD
The Right Choice. Right Now.
The 4HP14 is a choice you can make now for year-round reliability and energy savings.

Whether you’re facing a heat wave or a blustery fall morning, the Concord® 4HP14 heat pump is ready to keep your home perfect inside. Built with quality materials and tested for toughness, the 4HP14 is the right choice every time.
Thoughtful extras mean the 4HP14 exceeds expectations every time.

An ideal home environment comes from a combination of many things. To put you at ease, the 4HP14 includes everything from a noise-suppressing Quiet Shift™ defrost mode to a full 10-year limited parts warranty.*

The 4HP14 is always a smart, efficient choice.

Comfort doesn’t have to come at the cost of wise energy use. When paired with a matched indoor unit, the Concord 4HP14 can offer a Seasonal Energy Efficiency Ratio (SEER) of up to 15, and a Heating Seasonal Performance Factor (HSPF) of up to 8.5.

Over the years, a hardworking Concord heat pump can save you hundreds of dollars on utility bills.

Combine your 4HP14 with a gas furnace for Dual-Fuel capability.

When installed with a gas furnace, the 4HP14 creates what’s known as a Dual-Fuel system. A Dual-Fuel system is one that has the capability to warm your home using either gas or electricity, whichever is more cost-efficient for the weather.

U.S. Average Five-Year Electric Cumulative Energy Savings for High-Efficiency 14 SEER Heat Pumps vs. 10 SEER. Energy Efficiency and renewable Energy Network, U.S. Department of Energy. The U.S. national average is used for electricity consumption. Actual cost savings may vary depending on personal lifestyle, system settings, equipment maintenance, local climate, actual construction, installation of equipment and duct system, hours of operation and local utility rates. This information is intended as an example for comparison purposes only.
THE FULL-FEATURED CONCORD® 4HP14 IS THE RIGHT CHOICE, RIGHT NOW.

• Provides significant energy savings, with up to 15 SEER and 8.5 HSPF when paired with a variable-speed or constant-torque furnace or air handler
• 10-year limited warranty on the compressor and parts* means lasting peace of mind
• Entire unit is 100% factory run-tested to help deliver the highest possible level of reliability
• Dual-Fuel compatibility allows the heat pump to be paired with a matching gas furnace for even greater efficiency
• Quiet Shift™ design allows your heat pump to dissipate natural frost buildup automatically, with little or no noise
• Permanently lubricated condenser fan motor needs no annual maintenance
• ENERGY STAR® certification means efficient operation all year

*Applies to residential applications only. For terms, conditions and exclusions, see full warranty at alliedair.com.
